

TEST ENGINEER SWEDEN

Localitat: Suecia

This is an exciting opportunity for a Testing Engineer to be involved in the development of test cases of networking nodes. The role will require an in-depth understanding of the 3GPP standards and signalling protocols. You will be working closely with handset manufacturers and you will be part of the team developing TTCN-3 test cases used by customers for the certification of networking nodes.

DESCRIPTION OF THE POSITION - Network Test Engineer - Sweden

- Design and specify the testing documentation for networking nodes.
- Developing and debugging the test cases for networking protocols GSM, GPRS and UMTS.
- Execution of test cases using a variety of tools and techniques.
- Reporting on test execution, the quality of the tested deliverables and adherence to 3GPP protocols (GSM/GPRS, UMTS, LTE).

All these tests will be done under the standard TTCN.

REQUIRED QUALIFICATIONS AND SKILLS

- University Bachelor or Master Degree in Computer Science or Telecommunications Engineer
- At least 2 or 3 years working experience in related fields
- Familiar with Unix OS and CISCO. Familiar with at least one language: Shell scripts
- Knowledge of software testing, including test process and test methodologies.
- Knowledge in Core Network Products (MSC, MGW, SGSN, GGSN, MME, MME, MME) and/or Radio Network Products (RNC, RBS, eNB).
- Programming in C/C++.

PREFERRED QUALIFICATIONS AND SKILLS (Not compulsory)

- Knowledge/experience with any of the following is an advantage: Standard TTCN-3 and Understand telecom standards 3GPP.

OTHER SOFT SKILLS

- Willing to live in Sweden.
- Good English communication skills (both written and verbal).
- Can work independently, easy to work with and strong team work spirit.
- Innovative and problem solving.

WE OFFER YOU

- The opportunity to work in the most important telecommunication multinational company and be part of a Software Testing Team in Sweden.
- Work in projects that continuously evolve technologically allowing you to grow professionally
